New HARDY AZALEA HYBRIDS

SPRING 1940

AZALEA HYBRID, No. 13G.

Two year cutting

This azalea might well be called a hardy indica and it is one of the most attractive numbers. It has good plant habit, attractive foliage and flowers a little later than most. We have doubts if any azalea lover, being a potential customer, has seen it in flower here without buying at least one plant.

JOSEPH B. GABLE

STEWARTSTOWN, PA.

New Hardy Azalea Hybrids

Would you like to be in on the introduction of our new azaleas before they are named? We have decided to offer you that opportunity. Listed below under number only, you will find thirty-eight different azaleas. Out of some ten thousand hybrid seedlings we have selected through the years some two hundred for further observation. Of these we have selected for propagation and trial the thirty-eight numbers listed here. All are outstanding and we find a final choice difficult.

Therefore we have decided to offer them in limited quantities to our customers, hoping to get a line on the most popular varieties before we make any further selection:

These hybrids have been made in the effort to originate a hardier strain of the Japanese type of azalea in better form and color than have heretofore been available in hardy varieties. We have agreeably surprised ourselves with the results and hope you will be pleased also.

As to hardiness these varieties will average hardier than Azalea Hinodegiri or Amoena and much hardier than the Kurumes. All have lived and flowered in the open field here in the Pennsylvania hills where they have withstood temperatures of twenty below zero and more in the last few winters with only negligible injury to a few. Most of them were quite uninjured.

11G. Hose in Hose. Salmon red.	12-18 in.
13G. Double Salmon Pink. Very hardy.	12-18 in.
19G. Hose in Hose. Striped lavender.	18-24 in.
21G. Rose Pink. Good evergreen foliage.	12-18 in.
30G. Scarlet Red. A very good red.	8-12 in.
37G. Crimson pink. Compact. Large flower.	8-12 in.
38G. Double pink. Late.	12-18 in.
42G. Purplish Rose. Large and very hardy.	12-18 in.
45G. Large Salmon Red. Quite "different."	12-18 in.
67. Pink flowers. Good foliage.	12-18 in.
69. Lavender with crimson spotting. Now named "Mildred Mae."	12-18 in.

76G. Lavender.	8-12 in.
85G. Hose in hose pink.	8-12 in.
93G. Dark red.	8-12 in.
95G.	8-12 in.
96G. Hose in hose pink. Very good.	8-12 in.
97G. Dark Red.	8-12 in.
100G. Flame Red. Almost scarlet.	8-12 in.
111G. Salmon hose in hose flower of fine form.	8-12 in.
113G. Pale lavender. Throat flushed yellow.	8-12 in.
114G. A true pink. Single flowered.	8-12 in.
120G. Hose in hose. Salmon.	8-12 in.
121G. Early salmon red.	8-12 in.
122G. Color of Hinodegiri.	8-12 in.
123G. Small pink flowers. Plant habit fastigiate.	8-12 in.
126G. Lavender yellow throat.	8-12 in.
127G. Carmine pink.	8-12 in.
128G. Early pink.	8-12 in.
130G. Rose pink.	8-12 in.
132G. Lavender. Red throat.	8-12 in.
135G. Flame.	8-12 in.
140G. Pale Lavender.	8-12 in.
145G. Pale blush spotted carmine.	6-8 in.
151G. Double flowered pink. Late.	8-12 in.
152G. Single pink. Foliage evergreen.	8-12 in.
154G. Late flame.	8-12 in.
A10G. A very hardy pink.	8-12 in.
A11G. Early pink. Very good clear color.	8-12 in.

Prices are \$1.00 each for sizes available as listed under each number F. O. B. Stewartstown, Pa.

Collection, one plant each of 38 varieties, your choice, \$30.00—25 varieties \$20.00.

Only one collection to one address.
